

to getting to work with the new Executive Director, Michael Hauck, as he has demonstrated his support for YPC.

What would you like to see YPC accomplish?

We are off to a magnificent start; I hope we continue to carry this momentum forward. My primary focus is the mentoring program so I really want to see that develop to the point of being something that draws members to ASPRS.

What would you like to see happen in your lifetime in the geospatial industry?

I want to see the FGDC CSDGM move to ISO-1911* metadata standard. I also hope to not just see this happen but help implement the change.

If you could meet anyone, dead or alive, who would it be? What would you discuss?

I feel very fortunate to have met many of my idols. I attended North American Nature Photography Association's annual meeting as a sponsored student and met Roger Tory Peterson, Frans Lanting, Galen Rowell, Art Wolfe, Leonard Lee Rue and so many more. They all made a huge impact on my life. I have even had the opportunity to work with Lynda Wayne, my metadata heroine. But, to answer the question, I would enjoy speaking with Margaret Mead to see how she if she would implement Remote Sensing in her cultural anthropology studies.

REGION OF THE MONTH

AND THE WINNER IS...

POTOMAC REGION

The Potomac Region sponsored 13 new members during the month of January.

In recognition of their commitment to the Society, they receive the following:

- A certificate from ASPRS acknowledging their work in membership recruitment.
- ASPRS Buck\$ vouchers valued at \$50 to be used toward merchandise in the ASPRS Bookstore.
- This special recognition in this issue of *PE&RS* of their designation as "Region of the Month," a true display of their commitment to the Society.

This is an ongoing regional recruitment campaign. We hope other regions will be listed here in future months.

ASPRS MEMBERSHIP

ASPRS would like to welcome the following new members!
